Profile

Versatile, results-driven backend-leaning full stack developer with experience across multiple platforms - seeking autonomous, team-oriented environment.

Recent Experience

Senior Software Engineer - Invert, Inc. - Dec 2024 - Nov 2025

- Backend-leaning full stack development in Python/FastAPI/NextJS/Postgres/ElasticSearch/React, rearchitecting applications and APIs for apps ingesting and serving near realtime bioprocessor data for use in bioscience labs.
- Reimplement SQLAlchemy data modeling for biological systems, implementing access layer while removing MongoDB implementation.
- Architect multitenant authentication and user/admin RBAC.

Senior Software Engineer - Asimov - Dec 2022 - Nov 2024

- Backend-leaning full stack development in Python/Flask/Postgres/GraphQL/React of web app used by bioscientists for the modeling of genetic constructs.

Software Engineer - Morning Consult - Mar 2021 - Mar 2022

- Full stack development in Golang/TypeScript/GraphQL/Postgres - API development and multiple-format document/language parsing for the creation of surveys. Data ingestion and ETL pipeline for survey results.

Software Engineer - Contractor - May 2020 - Jan 2021

- Early contributor at stealth startup. Backend-leaning full stack development in Python/TypeScript/Node/GraphQL/React of greenfield apps. Implement live user event feed, external integrations, modeling/ingestion of user data.

Software Engineer - Unsupervised - Sept 2018 - May 2020

- Full-stack development in Flask/React/GraphQL/ElasticSearch of web app serving as data visualization layer for AI/ML derived data analysis.
- Rearchitecture of web app from Django/jQuery to Flask/React.
- Develop ElasticSearch API layer for document access

Software Engineer, CA Technologies - Jan 2018 - Sept 2018

- Full-stack development in React, Java of agile project management tool.

Education

Certificate, Web Application Development - Turing School of Software & Design
BA in English Literature, Minor in Russian Language - University of Florida
Biology & Chemistry - Metropolitan State University
